Parent account

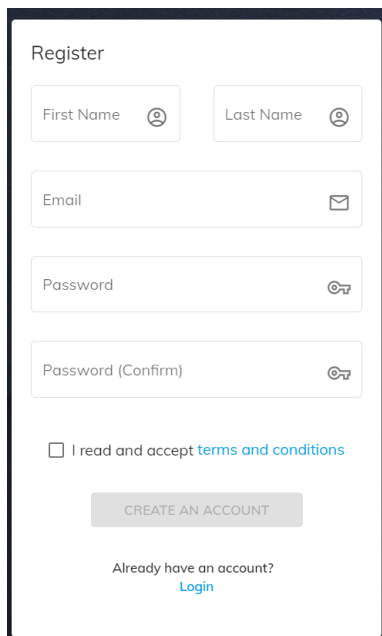

Login as a parent

The screenshot shows the 'KidOn' login page. At the top is the 'KidOn' logo with the tagline 'Be Your Kids Best Friend' and an illustration of three children. Below the logo is the heading 'LOGIN TO YOUR ACCOUNT'. There are two input fields: 'Email' with an envelope icon and 'Password' with an eye icon. A grey 'LOGIN' button is below these fields. Underneath is a separator '— OR —' and a red 'Log in with Google' button. At the bottom, it says 'Don't have an account?' followed by a blue link 'Create an account'.

You can log in by using your google email or by clicking on “Create account” and creating a new parent account.

Create parent account

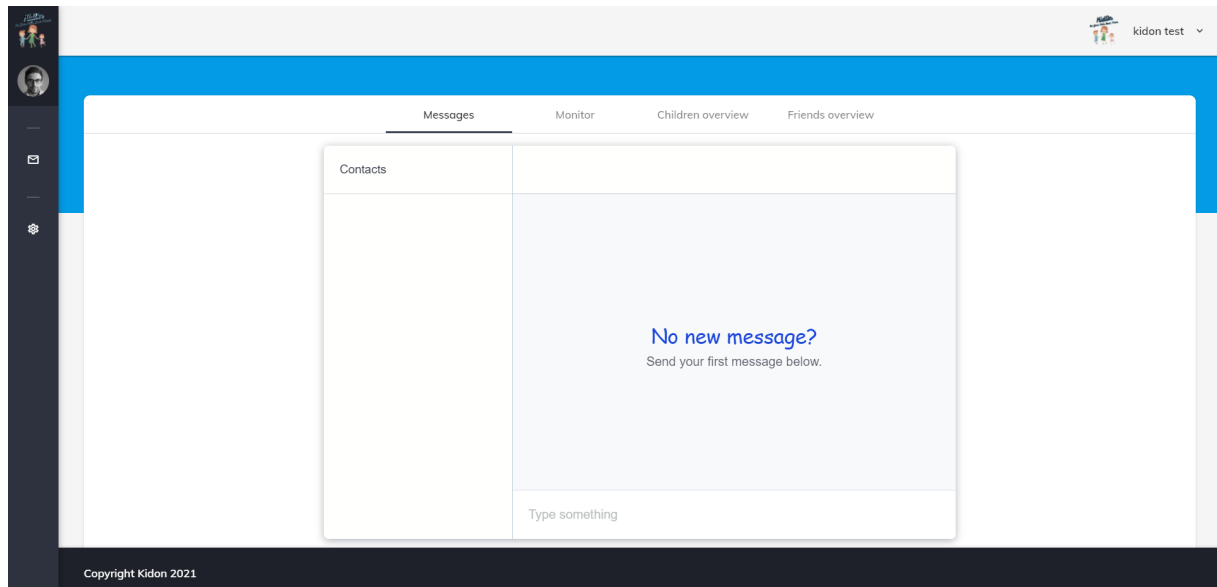

The screenshot shows the 'Register' page. It has a title 'Register' at the top. There are four input fields: 'First Name' and 'Last Name' (both with person icons), 'Email' (with an envelope icon), and 'Password' (with an eye icon). Below the password field is a 'Password (Confirm)' field (also with an eye icon). A checkbox is present with the text 'I read and accept' followed by a blue link 'terms and conditions'. A grey 'CREATE AN ACCOUNT' button is below the checkbox. At the bottom, it says 'Already have an account?' followed by a blue link 'Login'.

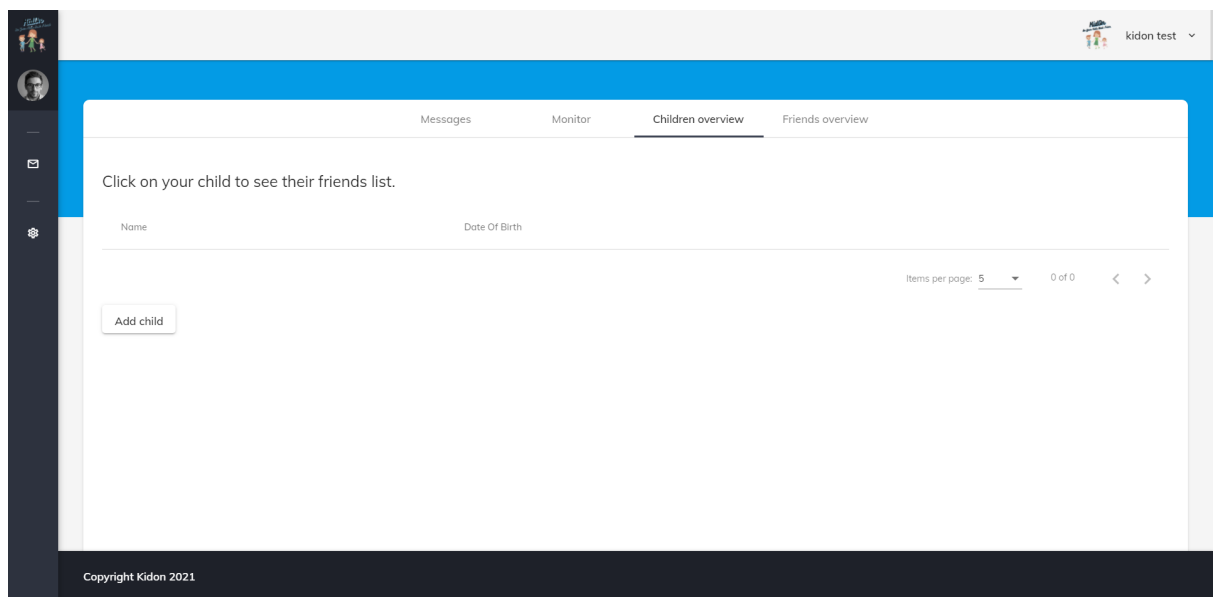

You can create a new parent account here. You can find this page by clicking on the link named “Create an account” in the login page.

Create your first child

After you login you will land on the parent page. In this page you have 4 tabs you can click on. At the moment you won't have any data and you need to click on the "Children overview" tab.

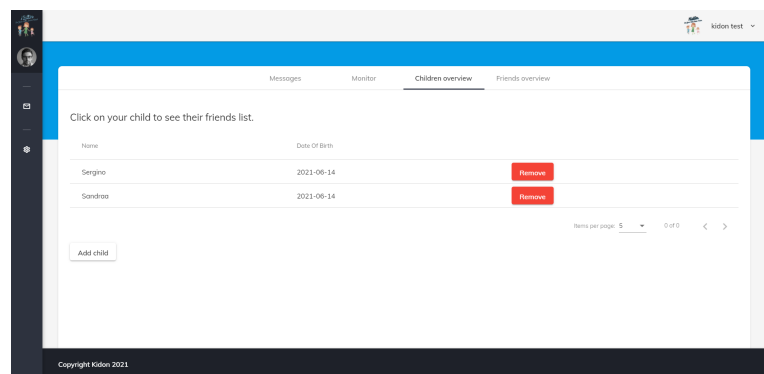

After clicking on the "Children overview" tab, you can now see a button named "Add child". Click on this button and you will see a pop up where you can add a new child.

A modal window titled "Add new child" with a close button (X) in the top right corner. It contains three input fields: "Email *", "Password *", and "Name *". At the bottom right of the modal is an "Add" button.

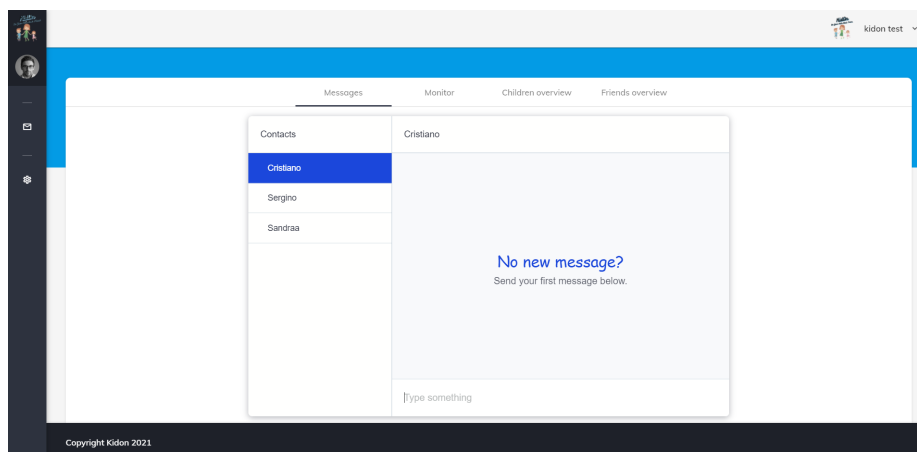

Here you can add your new child by filling in the details.

After you are finished adding your children to your account. You will have a nice overview of them and you can start talking to them on the “Messages” tab.

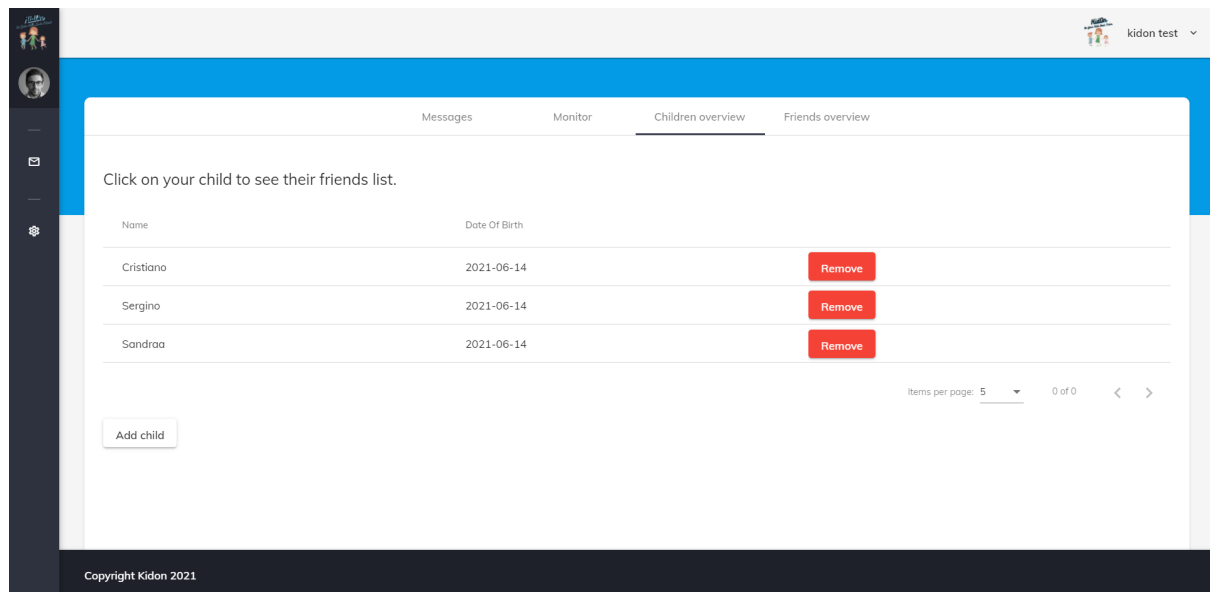

Message your child

You can start messaging a child after the creation of their account. Go to the “Message tab” and you will see all your children listed on the left side of the chat. Click on the name and you can type a message at the bottom of the chat. Press enter to send your message!

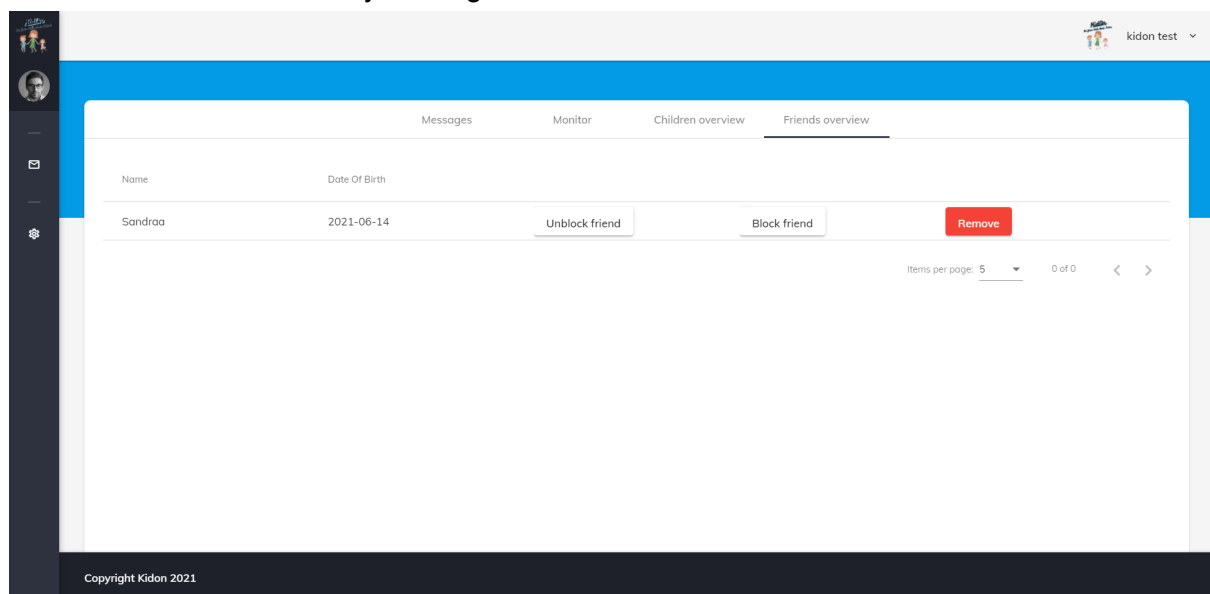

See friends overview(Block, Unblock & Remove friends)

Go to the “Children overview” tab and click on the name of your child to see their friends overview.

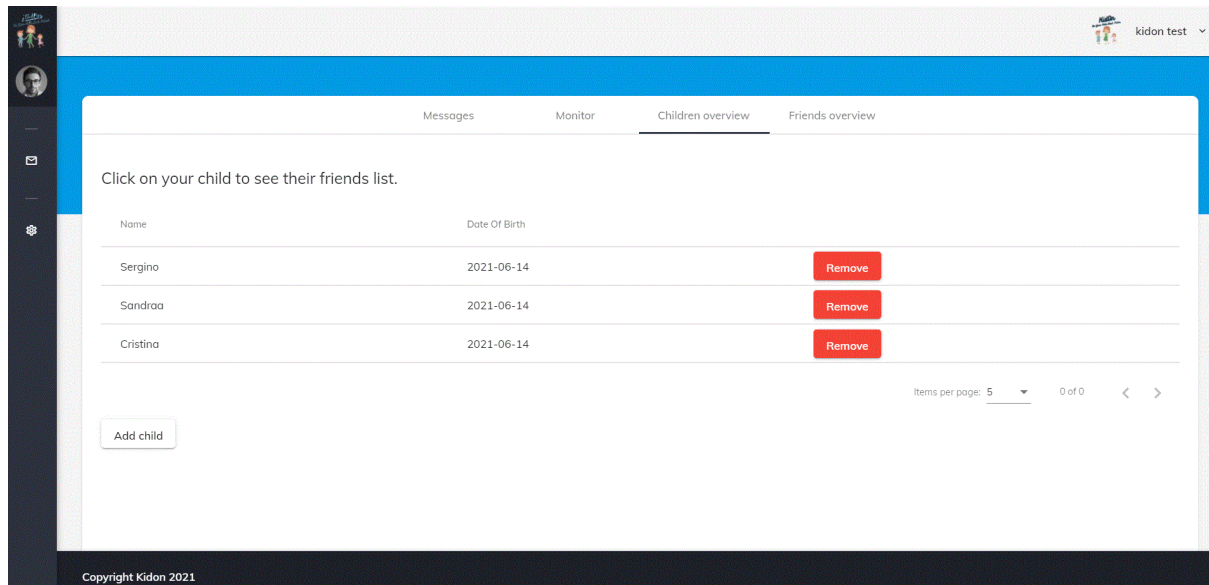

For example when clicking on Sergino, we will get the next screen in front of us. Sergino is connected to Sandraa. As a parent you can do three things from here. You can block, unblock or remove a child by clicking on the desired buttons.

Remove a child

You can remove a child by going to the “Children overview” tab and clicking on the remove button as demonstrated below.

Child account

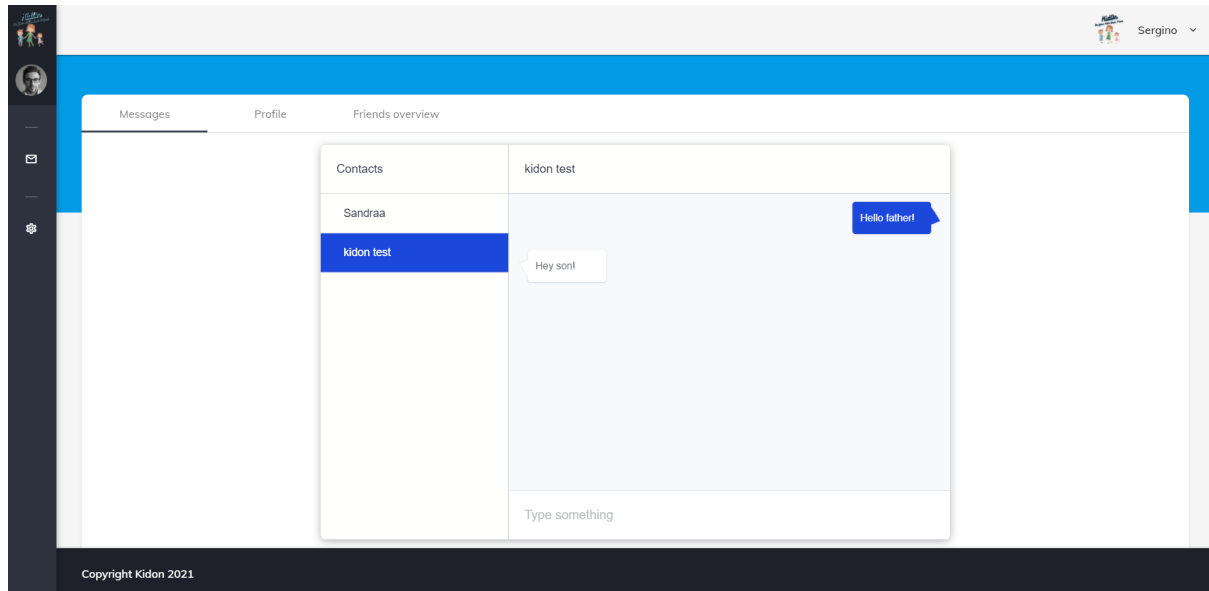

Login with child account

The login form for a child account features the KidOn logo at the top, which includes the tagline 'Be Your Kid's Best Friend'. Below the logo is the heading 'LOGIN TO YOUR ACCOUNT'. There are two input fields: 'Email' with an envelope icon and 'Password' with an eye icon. A grey 'LOGIN' button is positioned below these fields. Underneath the button is an 'OR' separator. A red button labeled 'Log in with Google' is located below the separator. At the bottom, there is a link that says 'Don't have an account? Create an account'.

Login with the email and password your parents used to create your account.

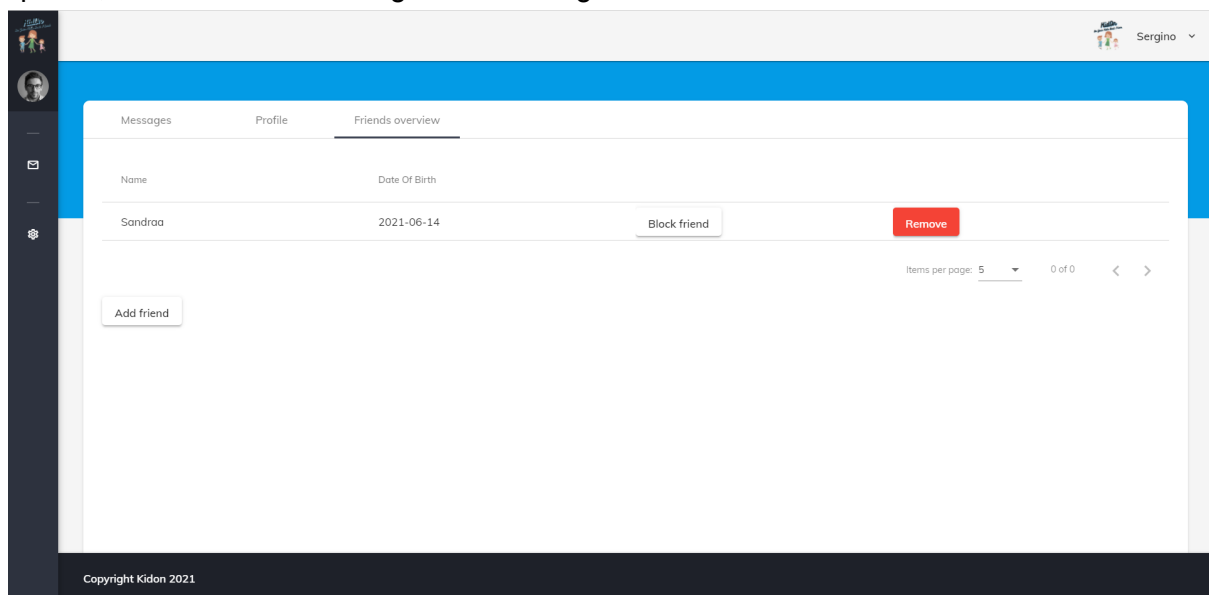

Message a friend

When you login you will be redirected to this page, where you have 3 tabs to choose from. In the “Messages” you will see all your contacts, which includes your parent and friend accounts. Click on any name you like to send a message and start talking to them by typing in the message box at the bottom of the chat.

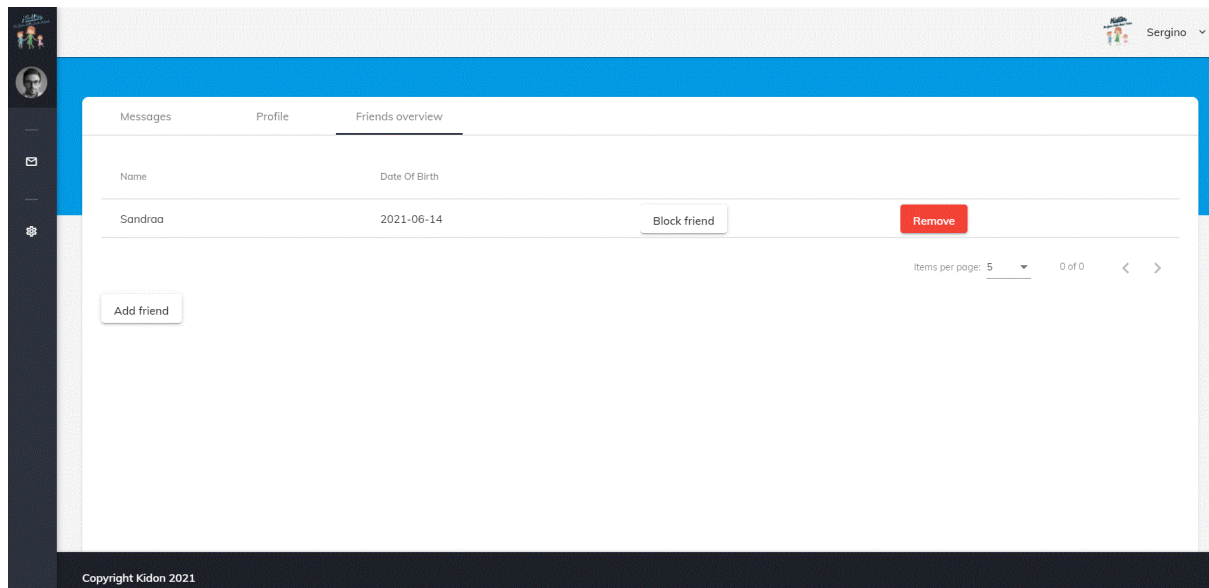

Block, unblock or remove a friend

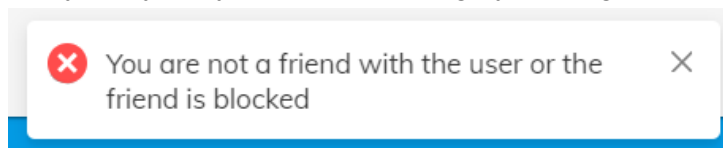

Go to the “Friends overview” tab. Here you will see a list of all your friends. You have 2 options, which include blocking and removing a friend.

If you click on remove, your friend will be removed from your list and you will need to add him again to be able to talk again.

If you clicked on “block friend”, you will not be able to send a message to that friend. Everytime you try to send a message you will get a warning message.

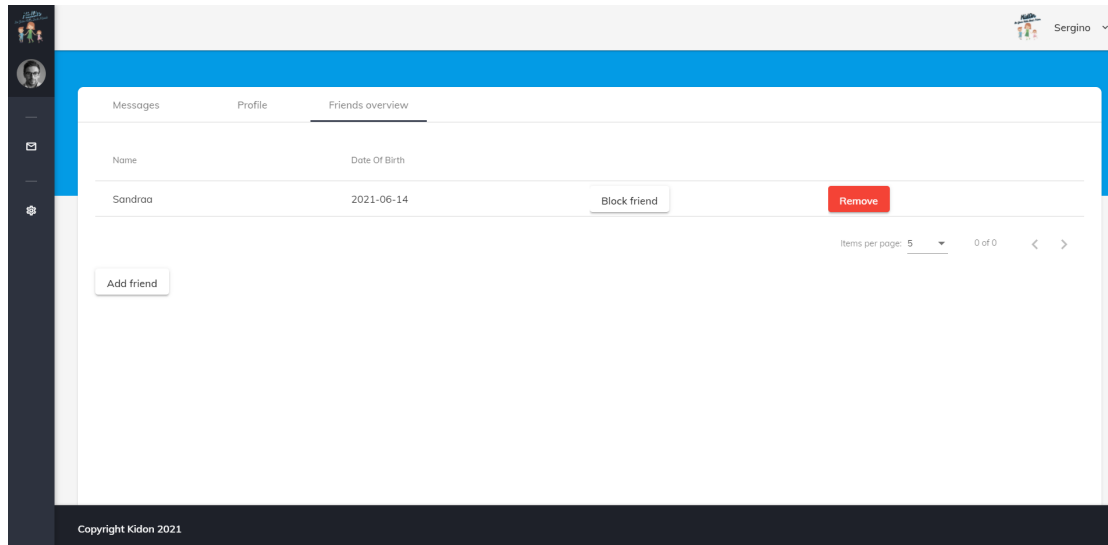

You need to talk with your parents if you want to unblock a friend. Only your parents will have the ability to unblock your friend.

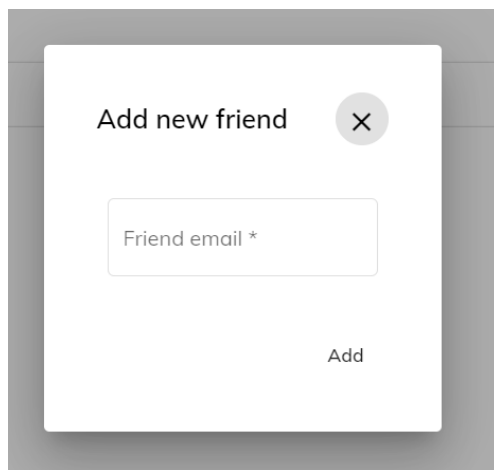

Add a friend

Tip: To add a friend you need to know their email and they need to know yours. If you add a friend and they don't add you back, you will not be able to talk with them.

Go to the “Friends overview” tab and click on “add friend”. You will see a pop-up after you click the button.

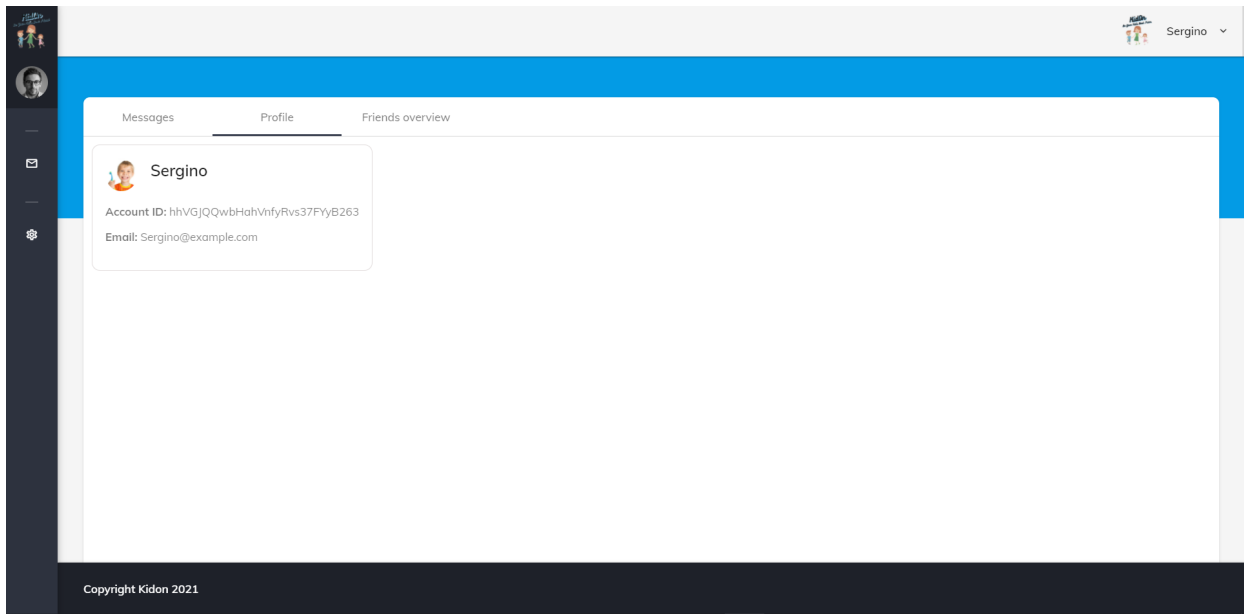

As mentioned before, you need to know your friend's email and then you can paste it here to add them.

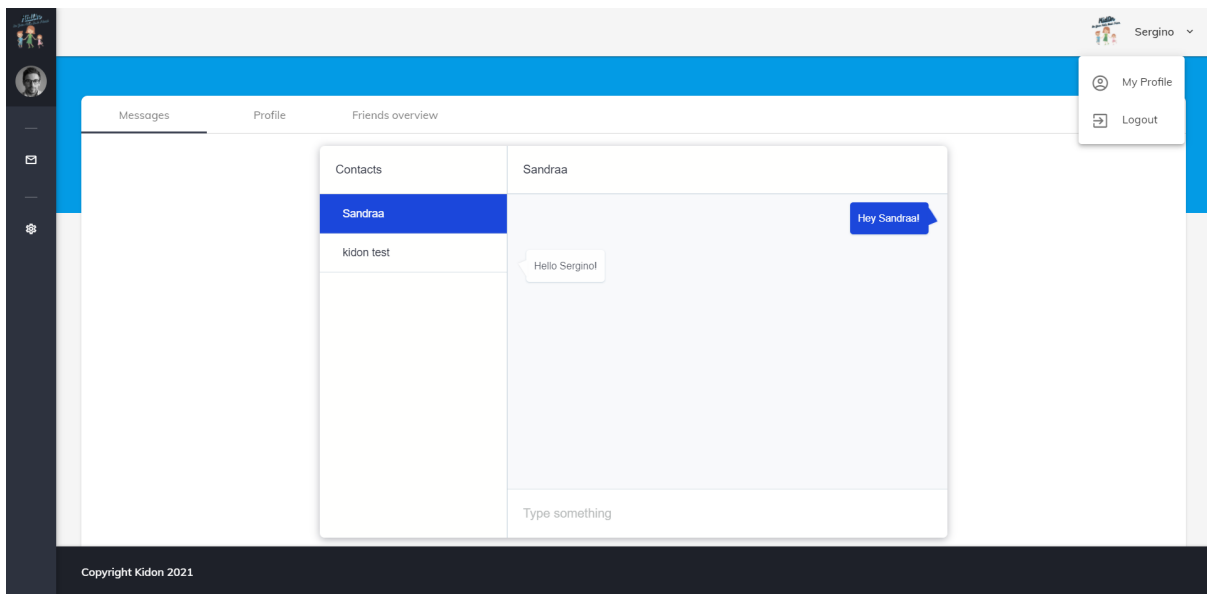

Account info

You can find your personal information by going to the “Profile” tab.

Logout

Logout is the same for all the accounts. At the right top of the page you can see your account name and an arrow. If you click on this arrow you will be able to click on a button called "Logout".
